

**Watercolour Painting** introduces you to materials and techniques to enable you to mix paint, make colour, paint washes and use wet in wet processes. You will learn skills such as mark making, composition, perspective, texture and tone and in turn develop your skills as a painter.

**Drawing and Painting Courses** look at drawing and painting skills through a range of media – such as charcoal, pencil, watercolour painting, pastels, acrylic or oils. The tutors allow you the freedom to experiment with techniques and materials that interest you, whilst concentrating on key skills.

**Craft Classes** these very varied classes provide you with the chance to work with materials in 3Dimension and to consider the design process and methods of producing finished items.

**Dance/Drama/Music** Dance courses enable you to learn a new skill in performance art whilst getting fit and having fun. Drama classes give adults the chance to develop skills in acting and voice work whilst improving confidence. We offer music classes in singing, guitar and drumming.

**Horticulture** covers a wide range of subjects to get you started and keep your interest going through the winter months, and includes classes such as garden design, planting schemes, organic gardening, pests and diseases, grow your own and flower arranging.
