I have recently received confirmation that the contribution bands will be increased by 10.1%. This is in line with inflation. Therefore, the bands will be as follows:

£187,201 or more	12.50%	6.25%

Setting employee rates from April 2023

You will need to review the rates paid by your LGPS membership with effect from 1st April 2023 and re-allocate where appropriate.

You will be aware that the band is based on a member's ACTUAL pay received.

To comply with the scheme rules the employer must use the expected pay in April 2023 and to estimate any other pensionable payments expected to be earned in the year in order to set the rate.

Re-banding during the year

Once the initial band is set for contributions the employer is required to review the band during a scheme year should the employee have a material change in contractual pay (e.g. as a result of a promotion, pay award or contractual hours change) and re-band where relevant.

Employer rates and 50/50

Please note that the employer contribution rates do not similarly reduce when members are in the 50/50 Scheme.

Should you have any questions regarding the contribution bands, please do contact the pensions section.
