

# How we feedback after our Learning Disabilities Partnership Board meetings

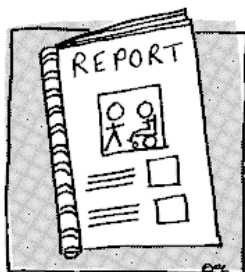

## Feedback

The Partnership Board Steering Group will provide feedback to the organisations and groups who present to the Board by using the comments from the workshops.

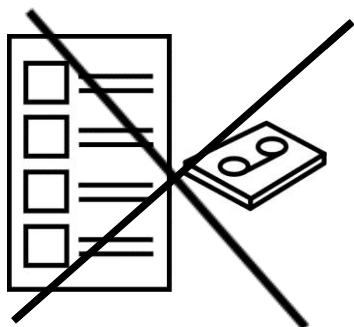

We have made a template (form) which will be completed after the meetings and emailed to the organisations.

These templates will help us tell the big bosses what we have done and what difference this has made.

## Papers for our meetings

We do not record or send out minutes of the Partnership Board meetings. All this information is included in the presentations and feedback templates. These are published on the website.

Members will be sent an email (two weeks before the meeting) which will give a link to the website page for the meeting papers. If members need hard copies by post, they can ask the Administrator.

All agendas, presentations and papers for meetings will be published on the website. These can be accessed and printed off by anyone wishing to attend a meeting.
