Local Nature Recovery Strategy

Making Space for Nature

Longlist of Species assessed in the development of the Local Nature Recovery Strategy.

The table of species has been created by Leicestershire and Rutland Environmental Record Centre (LRERC) with help from NatureSpot, Leicestershire and Rutland Wildlife Trust, Natural England, The National Forest, The Woodland Trust, significant County Recorder/Recording Groups and Other Agencies and Organisations.

Thank you to everyone involved in identifying, corroborating, classifying, and assessing over 1500 individual species for their inclusion in the Local Nature Recovery Strategy.
