

Photos taken October 2025

West to east view across the river showing the bridge beams in their final position. The west side approach road and EA access track can be seen in the foreground.

A view looking north along the river showing the new bridge span in front of the current bridge span.

Photos taken October 2025

Views of the new approach road on the east side of the river.

Gas pipe being laid in trench at top of embankment on east side of river. Topsoil has been laid on the embankment slope in the background.
