

# Story-telling Fun

## You will need

ANY pictures cut  
from anywhere

ANY sort of bag

A smiling face  
and a silly voice!

## Steps:

1. Cut out some pictures that would interest your child such as a smiling person, animals, a house, a sports car, a washing machine... Anything!!!!
2. Put a selection of three or four pictures into a bag – you could decorate the bag with your child to make it special.
3. One by one and with anticipation, let your child take out a picture, talk about the picture, name, and describe the picture.

## Now let's play!

- Use the pictures to tell silly stories encouraging your child to join in.... put the man on the tree.... make the dog drive the car.... Have lots of silly fun!

- Begin to add props to the stories using items within your home / your child's toys. Move the props around and make your stories come to life. Even just a few minutes of intensive 'talking' with your child each day will support their communication development.

What's next?
