

What's in the Bag?

You will need

teddy

cloth

toothbrush

spoon

plate

bag

Steps:

1. Put these items in a bag. Sit with your child and take out one item at a time, naming them as you pull them out.
2. See what your child does with these items. Show them how to use them. like feeding the teddy, brushing its teeth or putting it to bed. Try other actions like wiping teddy's face or washing dishes with a cloth. 😊
3. Comment on what is happening e.g. "bedtime" or "brushing teddy's teeth".

- Talk to your child about their daily routine. Ask your child what they do first, next or last in their own routine. E.g First, eat dinner. Then brush teeth. Last, go to bed!" You could play out this routine together.
- Add items from your child's routine like a hairbrush or toothbrush.
