27th August 2015

Dear Mr Wright,

**Leicestershire Minerals and Waste Local Plan – Future Sand and Gravel Proposals
Pincet Lane Quarry site**

Further to your correspondence of 3rd July regarding the Leicestershire Minerals and Waste Local Plan, please find attached the submission by Mick George Ltd in respect of the draft MLP for the promotion of the Pincet Lane site, North Kilworth. The submission refers to the mineral demand and supply within the County highlighting the deliverability of the Pincet Lane Quarry development. Mick George Ltd are promoting the Pincet Lane site for allocation within the MLP which will add 2.5 million tonnes of sand and gravel to the County's sand and gravel landbank. The Supporting Statement and consultant reports enclosed demonstrate the suitability of the site for inclusion within the Plan.

It is considered that on balance, with appropriate mitigation, the proposal at Pincet Lane can be carried out in an acceptable manner, without causing demonstrable harm. The resultant restoration scheme can reflect County Council sustainability objectives in that it will result in an improved restoration profile integrating the restored quarry into the wider landscape and promoting nature conservation and biodiversity initiatives in line with local and national policies. The scheme will provide a high standard of mitigation by delivering net gain in environmental capital and strategic bio-diversity networks as envisaged within the NPPF and development plan policies.

We trust that the attached submission can be given due consideration by your authority and needless to say, if there are any questions that arise from the attached statement then please advise.

Yours sincerely,

JG

John Gough
Planning Manager
