

LOCAL GOVERNMENT 2018 Pensions Bulletin

Issue 11
June 1

INFORMATION FOR EMPLOYERS

Proposed revision to Joint Administration and Communication Strategy

Operating a joint administration and communication strategy between the pension fund and its member employers is seen as one of the tools which can help in delivering a high quality administration service to the scheme member and other interested parties.

LGPS rules include an instruction that the strategy must be published and kept under review by the administering authority.

The strategy will need to be updated this year in three areas, covering administration charges, GDPR and the introduction of the new employer monthly reporting system 'I-Connect'. These key changes are highlighted on page 2 of the draft document which can be found alongside this bulletin.

I would therefore welcome your comments on the draft document.

The intention is for this to become effective from 1 September 2018.

Consequently, your responses to this consultation exercise are requested **no later than 29 June 2018** and should be emailed to ian.howe@leics.gov.uk

Regards

Ian Howe

Pension Manager
