INFORMATION FOR EMPLOYERS

Issue 13

September 19

Confirmation of Administration and Communication Strategy

Early in June, I circulated Bulletin issue 11 regarding the revision of the Leicestershire County Council Pension Fund Administration and Communication Strategy. This was for consultation which ended on 30 June.

Thank you to those employers who made comments, which have been taken into account.

You can now find the final Administration and Communication Strategy document on our web page '[Pension Service Standards](#)' for your information.

The document takes effect from 1 October 2018.

A few employers have asked me about the introduction of 'iConnect', the new data transfer solution we are gradually moving over to, and how implementation of the system is going so far. 'iConnect' is now being used by 15 scheme employers, with several others almost ready to fully implement. Employers are so far providing positive feedback.

I can confirm that all employers will be expected to send LGPS data via 'iConnect' by 31 March 2020 and employers are being contacted in phases. Some employers have also come forward asking if they can introduce the new process at an earlier date.

If you require further information about iConnect please phone the Pension Section on Tel 0116 305 5052.

Regards

Ian Howe
