We have helped thousands of people in Leicestershire find the right care for their individual needs. Since 2002, we have been working in partnership with the NHS, helping people to find the right care home or to arrange care and support in their own home.

Do you need to find a care home?

Each family is given their own independent care and support adviser. If you are looking for a care home, they can advise you on which care homes will meet your care needs and personal preferences. We can help with all the arrangements including transport and care home visits.

Care in your own home

We regularly liaise with care agencies to arrange packages of care to support people living in their own home.

Our service is completely free

If you would like to use our free, specialist, independent service, all you need to do is contact us.

"I started this service because working as a GP, I saw many families struggle to find the care they needed. That was 20 years ago and today, we continue to help families to provide an independent care and advice service."
