

# Have your say on the proposed A511 scheme and junction layouts

The existing A511 corridor, despite its importance, suffers from congestion and delays, particularly during the peak travel periods. High levels of congestion and changes in lane and road widths negatively affect congestion, journey time, the condition of the road and safety, influencing how and when people chose to travel along this route.

If we are not proactive, these transport conditions are likely to worsen over time potentially limiting the proposed future growth within the Coalville and North West Leicestershire area. This will make the area a less attractive place to live and work in.

Your views are sought on a proposed scheme to make changes to the A511, including proposed junction layouts and designs. This is your opportunity to express your thoughts, what concerns you may have and share any local or specialist knowledge that may help to improve the scheme.

Further information on the proposals can be found here: [www.leicestershire.gov.uk/A511MRN](http://www.leicestershire.gov.uk/A511MRN). Please read the supporting information provided before completing the questionnaire.

Thank you for your assistance. Your views are important to us.
