

Every Voice Counts

Engaging, Listening, Involving, Informing

Services in Leicester, Leicestershire and Rutland are working to improve their services and support for people with learning disabilities and/or autism. To do this we are launching a brand new campaign **'Every Voice Counts'**

What do we want to do?

We want to hear from people with learning disabilities and/or autism and their families, friends, advocates and carers.

Why do we want to do this?

Because you are the best people to tell us how services like health, social care, education, housing and leisure can be improved for people with learning disabilities and/or autism.

What do we want you to do?

We want you to tell us about the support that you receive and the services that you use. We know that everybody with a learning disability and/or autism is unique. You can tell your story in whatever way is best for you. This could be through a poem, a video, a song. The possibilities are endless. **We particularly want to hear about people's experiences and their stories during the coronavirus (COVID-19) pandemic.**

You might be ready to start telling your story soon, or you might need some help getting started. Either way, please contact us.
