

Local Government Pension Scheme Bulletin

Issue 7 **25th February 2021** **McCloud/Sargeant Judgment Update**

Our software suppliers have recently provided a report that may be of use to colleagues dealing with the collation of data for the McCloud exercise.

It identifies pension scheme members that are held on our database and are deemed 'in scope' for the purposes of the McCloud exercise. It is produced in the same format as the LGA standard template and also includes details of the hours that we currently hold, plus extra information that isn't included in the original specification.

The report is designed so that it could act as a template to form the basis of a return, although extra information and lines of data would need to be added to ensure that the hours changes that we do not currently hold are included. Given that hours have generally not be requested since 2013/14 it is likely that there will be plenty of extra data to add.

If you think that this report may be of use to you or you would like to discuss this further, then please contact Stuart Wells (stuart.wells@leics.gov.uk/ 0116 305 6944) to arrange for this to be sent to you. Note that the data will be sent securely through the Council's secure email system, Egress.

Regards,
Ian Howe – Pensions Manager
