## Questions About Fossil Fuel Investment

There has been widespread media coverage following publication of a report from Platform and Friends of the Earth. The report highlights investment of local government pension funds in 'fossil fuel' companies and encourages divestment. Information was uploaded to the site [UK Divest](#). The site allowed viewers to send templated letters to Councillors with respect to fossil fuel investments.

The Pension Fund's response, which covers the background and a response to the three questions that form part of the templated emails being circulated, can be found on [this webpage](#).

Please feel free to distribute this to any of your scheme members if you receive any enquires about this.

Any questions regarding this should be emailed to:
