### **Rugby Road/Hawley Road Scheme**

#### **Night time Surfacing Works commencing 12<sup>th</sup> September 2022**

Works on the Hawley Road/Rugby Road/Westfield Road Junction have progressed well, and we have now reached the surfacing phase of works.

Works are scheduled to be carried out during a 3-week period as follows:

- 12<sup>th</sup> September 2022 start of night time surfacing works
- Full junction closures will be in place during night-time hours, with traffic marshals in place to manage access through the works.
- Road closures are 8pm to 6am Monday to Friday
- 30<sup>th</sup> September 2022 end of works

During these necessary works, it is inevitable that there will be an element of noise and disruption to surrounding properties due to the type of work being carried out. Works have been scheduled during the night time hours of 8pm and 6am. This decision was taken due to the high volume of traffic on the Rugby Road during the day and highway network restrictions.

Initially, during the first week, the removal of the existing road surface will incur an element of noise along with the breaking out of the existing iron works in the road.

The second week of works, involving the laying of new asphalt, will require HRA chips to be loaded into a hopper for even distribution and subsequent compaction of the material via rolling plant. This operation will again incur some noise and disruption. In addition, the roller 'reversing night- time white noise equipment' is installed for the safety of the workforce and it is imperative this is used. If individual shifts go well, noise naturally tails off into the early hours as work is completed.

During the course of the third week, white line road marking and loop cutting for the traffic signal sequences is scheduled to take place. The programme of works is subject to favourable weather conditions.

We apologise for any inconvenience caused and ask that you please bear with us during this busy period. Your help and understanding during these night time works, is really appreciated by our onsite team.

Should you have any queries regarding the works/scheme please get in touch I can be contacted by my email email [joanne.plews@eurovia.co.uk](mailto:joanne.plews@eurovia.co.uk) or via telephone 07768 940 187.

We thank you in advance for your patience and cooperation.
